

Summer 2021- Add an Internship to your 5-week summer program!

Students participating in the summer 2021 5-week program have an exciting option! For an additional \$2500 students can complete a three-hour internship while living at the Manor. We will offer the students personalized attention in creating their placement and helping with questions throughout the process.

- Additional expenses for students are the Tier 4 visa costs and any transportation costs associated with the internship.
- The dates for the internship are July 1- July 30th for those attending the Italy trip. For those not attending the Italy trip, the dates are June 28th- August 1st.
- During this time, room and board at the Manor are included in the fee as well as the three-credit hour course.

Students wishing to complete this internship in the summer will need to complete the summer internship application in addition to the 5-week application. Once completed, our internship team in the UK will reach out to help with your placement.
